Inkyu Shin | Curriculum Vitae

dlsrbgg33@kaist.ac.kr

I am a second-year Ph.D. student at Korea Advanced Institute of Science and Technology (KAIST) under the co-supervision of Prof. Kuk-Jin Yoon and Prof. In So Kweon. I earned my B.S and M.S degrees in automotive engineering from Hanyang University(HYU) and KAIST in 2019 and 2021. I was a research intern at NEC Laboratories America, Inc, San Jose, CA (virtual).

Research Interests

My research interests currently lie in computer vision. Specifically, I pursue the goal of effectively processing data and building strong recognition model in computer vision. Followings are my main research topics.

- Semantic Segmentation
- Domain Adaptation and Generalization
- Simulated Learning
- Self-supervised Learning

Ultimately, the purpose of these researches is to apply to a variety of applications (e.g., Autonomous driving, Robot Navigation, AR/VR).
